Objective:

Energetic college student seeking a training internship to develop and improve my skills in technology, communications, teamwork, and to meet potential mentors who can provide me with guidance and feedback.

Education

Southwestern University   Class of 2023
- Bachelor of Arts: Computer Science   Georgetown, TX
- Minor: Business Administration
- GPA: 3.615

Work Experience

Lily Rain Jewelry LLC.   March 2021 - August 2021
Systems Administrator & Project Manager

- Managed migration from legacy POS software to web-based, Shopify POS software. Coordinated inventory and customer data conversions. Upgraded the system hardware compatibility.
- Worked alongside the Shopify development team and Lily Rain employees for a seamless rollout process.
- Determined compatibility with various software by developing modifications and integration planning.
- Directed main office employees and store personnel to develop and coordinate software implementation.

Marketing Associate   March 2020 - August 2020

- Implemented a service called Afterpay, which offers an installment plan (buy now, pay later program). Handled the complete implementation from start to finish. Worked with personnel from Afterpay and Shopify to implement the required interfaces and processes. As a result of implementing Afterpay, the company had an 8% increase in online sales.
- Reported on conversion rates and other metrics to inform the marketing team of campaign performance.

The GKG Charitable Fund   June 2021 - Current
Advisor

- Exists to provide pathways for youth to realize life opportunities through sports, education, and mentoring programs.
- Assisted in the management of the Fund, in setting the strategic direction, and the oversight and approval of grants.
- Performed philanthropic research on charities prior to making grants to ensure the principles and goals of the charity are aligned with the goals of the Fund.

Honors/Activities
- Southwestern University Dean's List, Spring 2021
- NCAA Division III Men's Soccer Team
- National Merit Commended Scholar

Skills
- Linux, JavaScript, Python, C/C++, Java, Go, Database programming, Shopify API
